

Katie Hunt

Web Developer | Python & SQL Developer | Data Analyst | Educator Turned Tech Enthusiast

📍 Atlanta, GA | 📞 770-940-9245 | ✉️ katiehunt95@gmail.com 🔗

Professional Summary

I am a detail-oriented professional with a strong aptitude for technology, seeking an entry-level Web Developer, Python Developer, SQL Developer, or similar role. I specialize in web development, AI-assisted programming, AI agent development, and financial analytics. I thrive on tackling complex challenges, optimizing systems, and delivering results that matter. I am ready to bring relentless energy, technical excellence, and creative problem-solving to your team.

Technical Skills

- **Languages:** Python, SQL, Pine Script
- **Dev Environments:** PyCharm, VS Code, Google Colab
- **AI:** Proficient in Gen AI tools, Prompt Engineering, AI Agent Creation, and Coding with Artificial Intelligence
- **FinTech:** Financial Chart Analysis, Custom Built Trading Indicators & Automated Strategies, Rsk/Reward Profiling
- **Version Control & Operations:** GitOps Administrator - Level 1
- **Creative & Visual Tools:** DaVinci Resolve (Video Editing), Excel, PowerPoint (Advanced), Prezi (Advanced), Canva, Microsoft Suite, Google Workspace
- **Web Design & Development:** Wix, GoDaddy, Replit

Projects & Technical Experience

AI Agent & Workflow Automation

- Built custom AI agents using prompt engineering techniques with LLM
- Built Python-based custom agents to streamline workflows

Training: Developing Machine Learning Solutions Using AI

- Designed end-to-end machine learning pipelines from data preprocessing to deployment
- Implemented and tuned supervised learning models for practical use
- Evaluated model performance using standard metrics and tools

Training: Coding with Artificial Intelligence

- Used GitHub Copilot and AI-powered IDEs for code generation, completion, and debugging
- Applied AI tools to improve development speed and code quality
- Explored ethical considerations surrounding AI-generated code

Trading Strategy & Indicator Developer

- Created custom-built TradingView indicators and strategies using Pine Script
- Implemented semi-automated model entry/exit systems
- Specializes in debugging, code optimization, and reusable architecture

Presentation & Visual Design

- Produced dynamic visual presentations with DaVinci Code, Canva, Prezi, and PowerPoint
- Developed foundational website skills: layout, styling, and basic interactivity.

Certifications & Training

- **Developing Machine Learning Solutions Using AI** – *Florida Gulf Coast University*
- **Coding with Artificial Intelligence Training** – *Florida Gulf Coast University*
- **Fleet Certified GitOps Administrator – Level 1** – *Fleet Device Management*
- **Programming with Python – Level 1** – *Teach The Nation (TTN)*
- **TTN Website Development Level 1** – *Teach The Nation (TTN)*
- **TTN+Cognizant Data Management** – *Teach The Nation (TTN)*
- **30-Day Bootcamp in Python Certification** – *Sanfoundry*
- **Programming Foundations with Python** – *QurioSkill*

Education & Background

MAT, Health & Physical Education – *Georgia State University, 2021* | GPA: 3.89

BS, Interdisciplinary Studies – *Jackson State University, 2017* | GPA: 3.159

Professional Experience

Health and Physical Education Teacher | Druid Hills High School, Atlanta, GA | September 2018 – May 2021

- Curated engaging lesson plans and school-wide events.
- Successfully coached sports teams, guiding students to achieve exceptional performance and sportsmanship.
- Ensured the safety of students during physical activities while following safety protocols.

Health and Physical Education Teacher | A.R. "Gus" Barksdale Boys & Girls Club, Conyers, GA | May 2016 – September 2018

- Delivered structured physical activity programs
- Promoted fitness and teamwork in recreational settings
- Fostered youth development through mentorship

Summer Camp Counselor & Substitute Teacher | Excell Preparatory Center, Stonecrest, GA | May 2015 – August 2016

- Provided interactive lessons and educational support
- Maintained safe and productive learning environments
